8. Main Content

This technical regulation covers the assessment of conformity of simplified professional radio communication equipment.

9. Brief Statement of Grounds

The basis for the notification of this draft is the proper

use
of the radioelectric spectrum. The results of the tests carried out in the laboratories designated by the other Member States, in accordance with Article R 20-18 of Decree no. 92-116 of 4 February 1992 relating to the approval of telecommunications terminal equipment, connection conditions and acceptance of installers, are considered to be valid.

In accordance with the position of the French authorities relating to radioelectric receiver regulations, and notified within the framework of the reply to the detailed opinion issued by the Commission on draft 95/203/F (Technical Regulation applicable to terminal equipment for plesiochronous directional radio links in the 13 GHz band (SP/DGPT/ATAS/30), manufacturers have the option of producing, for their receivers, a declaration of conformity with the requirements specified in the relevant chapter (see Chapter 6 "Test method").
