#### **4. Notification Number**

2007/0690/E – I20

#### **5. Title**

Draft Royal Decree adopting the Regulation on pressure equipment and the supplementary technical instructions thereof.

#### **6. Products Concerned**

Pressure equipment

#### **7. Notification Under Another Act**

-

#### **8. Main Content**

The Draft refers to the installation, periodical checks and repair of, and alterations to, pressure equipment and simple pressure containers with a maximum permitted pressure above 0.5 bar, in their various forms.

It consists of two pieces of legislation: The regulation lays down the essentially administrative bases and the general bases; the 6 supplementary technical instructions implement the provisions of the regulation and stipulate the technical specifications relating to the different methods specified.

It should be noted that Joint Technology Initiative (JTI) EP 5 attached was previously notified as JTI AP 18, numbered 2002/0487/E. The only aspect to be amended was the structure of the text, in order to adapt it to other JTIs. The content remained unaltered.

#### **9. Brief Statement of Grounds**

The Draft is justified on both legal and technical grounds. It replaces the current regulation on pressure equipment, which dates back to 1979 and was implemented by means of provisions and implementation criteria commensurate with the Community law in force at the time.

#### **10. Reference Documents - Basic Texts**

-

#### **11. Invocation of the Emergency Procedure**

No

#### **12. Grounds for the Emergency**

-

#### **13. Confidentiality**

No

**14. Fiscal measures**

No

**15. Impact assessment**

-

**16. TBT and SPS aspects**

-
