8. Main Content

The purpose of this Order is to enact specific accessibility rules for existing penal establishments, pursuant to Article R.111-19-12 of the French Construction and Housing Code relating to certain establishments open to the public. The main provisions of this Order are technical rules for bringing penal establishments in line with standards, as well as the possibilities for derogations to these rules and the specific rules associated with the constraints of penal security.

9. Brief Statement of Grounds

Implementation of the accessibility policy within penal establishments is based on large-scale construction programmes in place since the 1990s which include an 'accessibility' component and which, since the Order of 4 October 2010 enacting the provisions of Article R.111-19-5 of the French Construction and Housing Code, incorporate specific accessibility rules for the construction of prison buildings. This only concerns a dozen or so establishments. In order to bring the 177 remaining penal establishments in line with standards, the prison administration will have to submit accessibility agendas based on the standards defined in this Order to the prefecture before the end of the year.
