8. Main Content

This draft Order involves supplementing the Annexe to the amended Order of 28 February 1989 by introducing 3 standards concerning fertilisers for mineral nutritional solutions.

9. Brief Statement of Grounds

The French regulations concerning fertilisers for agriculture are aimed at enabling the marketing of products which have proved their safety with regard to humans, animals and the environment.

For certain everyday products whose composition and properties are known and whose safety has been shown by periodic controls, the placing on the market is authorised in so far as regulations on names and labelling, defined by standards, are complied with, thus ensuring adequate information for users of these products and fairness in commercial transactions.
