8. Main Content

The draft decision lays down the conditions of use for the frequency band 38 GHz (37.268 - 38.220 and 38.528 - 39.480 GHz) by fixed service point-to-point link radio installations. It is foreseen that the decision, once adopted, will replace the existing provisions and abrogate Decision No. 02-0387 of 23 May 2002 taken by the abovementioned regulatory authority, laying down the technical conditions and the general operating conditions for the frequency band 37 - 39.5 GHz for fixed service transmission links.

9. Brief Statement of Grounds

The objective of the draft decision is to introduce new, broadened power cables to the frequency plans already authorised. For the new high capacity power cables, opened by this draft decision, a plan of action will then be specified for a systematic review of antenna that are higher performance than those used hitherto (class 4 antenna).
