8. Main Content

This draft order sets out the criteria allowing the operator of a plant classified for environmental protection as provided under Article R511-9 of the Environmental Code to achieve end-of-waste status for items or chemicals that have been prepared for reuse. It consists of operations involving the monitoring, repair or cleaning of waste.

9. Brief Statement of Grounds

This draft order aims to terminate the 'waste' status for items and chemicals that have been designated as such because their former owners wished to dispose of them for reasons other than their lifespan or potential for reuse. A positive list of waste that may be prepared for reuse can be found in Annex I to the draft order. The waste mentioned relates mainly to items that are commonly reused as second-hand items, for example tyres, textiles or electrical and electronic equipment.

These items and chemicals must undergo various operations before they can lose their waste status:

- a technical and administrative control to identify the procedure to be put in place to enable their reuse,
- repairs and/or cleaning.

Items and chemicals must then be labelled, packaged or repackaged and stored in line with similar practices for the distribution of primary manufactured items and chemicals. They must be sold for the same purpose as the original intended use. The operator must also implement a quality management system covering the various management operations for this waste.

If an item or chemical complies with all criteria mentioned in the order, it will be able to achieve end-of-waste status and be reused as a second-hand item or product for the same purpose as the original intended use.

10. Reference Documents - Basic Texts

Reference(s) to basic text(s): • Regulation (EC) No 850/2004 of 29 April 2004 on persistent organic pollutants and amending Directive 79/117/EEC;

• Regulation (EC) No 1907/2006 of the European Parliament and of the Council of 18 December 2006 concerning the Registration, Evaluation, Authorisation and Restriction of Chemicals (REACH), establishing a European Chemicals Agency, amending Directive 1999/45/EC and repealing Council Regulation (EEC) No 793/93 and Commission Regulation (EC) No 1488/94 as well as Council Directive 76/769/EEC and Commission Directives 91/155/EEC, 93/67/EEC, 93/105/EC and 2000/21/EC;

• The Environmental Code, particularly Articles L541-4-3 and D541-12-4 to D541-12-14 thereof;

• Order of 29 February 2012 establishing the content of the registers mentioned in Articles R541-43 and

R541-46 of the Environmental Code;

• Order of 19 June 2015 on the principles of the quality management system referred to in Article D541-12-14 of the Environmental Code;

11. Invocation of the Emergency Procedure

No

12. Grounds for the Emergency

-

13. Confidentiality

No

14. Fiscal measures

No

15. Impact assessment

-

16. TBT and SPS aspects

TBT aspect

No - the draft is neither a technical regulation nor a conformity assessment procedure.

No - the draft has no significant impact on international trade.

SPS aspect

No - the draft has no significant impact on international trade.

No - the draft is neither a sanitary nor phytosanitary measure.
