Department of Trade and Industry: Standards and Technical  
Regulations

**3. Originating Department**

Ministry of Agriculture, Fisheries and Food Animal Health  
(Disease Control) Division

**4. Notification Number**

98/0483/UK

#### **5. Title**

The Diseases of Animals (Approved Disinfectants) (Amendment)  
Order 1999

#### **6. Products Concerned**

Disinfectants to be used in relation to the control of animal  
disease in Great Britain.

#### **7. Notification Under Another Act**

-

#### **8. Main Content**

This order amends the list of approved disinfectants for the  
control of animal diseases in Great Britain.

The UK will fulfil its obligation under Article 12 of  
Directive 98/34/EC (formerly 98/34/EEC) (as amended) when  
these Regulations are officially published.

#### **9. Brief Statement of Grounds**

EC animal health legislation (including Directive 90/242  
dealing with the eradication of brucellosis in sheep and  
goats and Directive 85/511 dealing with Foot and Mouth  
disease) include the requirements that disinfectants used in  
connection

with disease control procedures, and their concentrations,  
are authorised or officially approved. This is implemented in  
Great Britain by the Diseases of Animals (Approval of  
Disinfectants) Order 1978 (as amended) which, in view of the  
importance that effective disinfection plays in successful  
disease control arrangements, extends the principle to  
certain other diseases not covered by common EC disease  
control arrangements.

An approved disinfectant and the dilutions at which it is  
effective against specific diseases must be listed in the  
1978 Order before they can be marketed and used as a Ministry  
approved disinfectant. The draft regulation under  
notification seeks to amend that list by adding the names of  
products which have been approved by the Ministry and making  
other relevant amendments. Such amendments are usually made  
at six monthly intervals.
