5. Title

Draft Law on marine fisheries, shellfish harvesting and aquaculture in the Balearic Islands

6. Products Concerned

Commercial and recreational fishing, fishing products, shellfish harvesting and marine aquaculture.

7. Notification Under Another Act

- Regulations (EC) No 852/853/854/2004 on the hygiene of foodstuffs

8. Main Content

Basic regulation, within the framework of European legislation and, in particular, Regulation (EC) 1967/2006 concerning management measures for the sustainable exploitation of fishery resources in the Mediterranean Sea. The Law also governs fishing legislation activities in the Balearic Islands, but within the relevant framework of Spanish Basic Law 3/2001 on state marine fisheries.

9. Brief Statement of Grounds

The basic reason is that in the Balearic Islands, there is no existing Law governing fishing in territorial waters, marine aquaculture and shellfish harvesting. Existing regulations (if any) are inconsistent, outdated and often anachronistic and need replacing with a modern law based on the basic principles of European legislation. Clarifications are also given regarding the responsibilities between the regional government and Insular Councils, which also hold regulatory powers with regard to fishing.
