4. Notification Number

99/0365/E

5. Title

Draft decree approving the technical standard on common telecommunications infrastructures in buildings for access to cable telecommunications services.

6. Products Concerned

Concerns the installation of systems for the adaptation and distribution of cable telecommunications signals in buildings.

7. Notification Under Another Act

-

8. Main Content

This decree concerns the common telecommunications infrastructure intended to allow access to cable telecommunications services by means of the technical equipment necessary to enable different homes and premises in a building to be connected to the networks of the authorised operators. The technical specifications which will facilitate the aforementioned access shall be determined in accordance with the annex to this decree.

The conditions laying down the obligations and responsibilities of authorised operators, subscribers to the service, residents' associations or landlords, and the government are established.

The technical projects shall be implemented and monitored by competent qualified telecommunications engineers and set up by qualified installation engineers.

The annex to the decree defines and specifies the different elements of the aforementioned infrastructure, the technical specifications which it must fulfil and the minimum safety requirements.

9. Brief Statement of Grounds

It may be noted that the reasons which have led to the drawing-up of the present decree for access to the cable telecommunications service are the regulation of the service, greater ease of installation due to a specific infrastructure for telecommunications, greater facility in receiving the aforementioned service under the best possible conditions, and the development of legal conditions which allow citizens rapid access to new information technology.

10. Reference Documents - Basic Texts

- Royal Decree 2652/1982 of 24 September.
- Royal Decree-Law 1/1998 of 27 February on common infrastructures inside buildings for access to telecommunications services.
- General telecommunications Law 11/1998 of 24 April

11. Invocation of the Emergency Procedure
