8. Main Content

The aim of the provisions of the text is to specify the three
systems provided for by article 28 of the law of 29 December
1990 relating to the amended regulations governing
telecommunications (freedom, declaration and authorization),
thereby creating a free system in conjunction with the
systems which were previously maintained and upheld
(declaration and authorization) for the supply, utilisation,
import and export
of a cryptology method or service in accordance with the

functionalities, characteristics or conditions for use of this method or service, or else when recourse is made to its operation, to secret agreements managed by an approved body, or to specify administrative procedures relating to declarations or a request for authorization.

9. Brief Statement of Grounds

The text is adopted in application of article 28 of the statutory law governing telecommunications of 29 December 1990 amended by article 17 of the statutory telecommunications law of 26 July 1996. The provisions thereof specify the application of new systems defined by the law.
