5. Title

DRAFT ROYAL DECREE AMENDING ROYAL DECREE 846/2011 OF 17 JUNE, ESTABLISHING THE CONDITIONS WHICH MUST BE MET BY RECYCLED POLYMER-BASED RAW MATERIALS FOR USE IN MATERIALS AND ARTICLES INTENDED TO COME INTO CONTACT WITH FOOD.

6. Products Concerned

Recycled polymer materials for use in materials and articles intended to come into contact with food.

7. Notification Under Another Act

- Commission Regulation (EC) No 282/2008 of 27 March 2008 on recycled plastic materials and articles intended to come into contact with foods and amending Regulation (EC) No 2023/2006.

8. Main Content

Amendment of Article 2 of Royal Decree 846/2011 of 17 June, establishing the conditions which must be met by recycled polymer-based raw materials for use in materials and articles intended to come into contact with food, which only authorised the use of polyethylene terephthalate (PET)-based raw materials, resulting from a recycling process obtained in Spain, for use in plastic materials and articles intended to come into contact with bottled drinking water and soft drinks, extending its scope to all recycled plastic materials obtained in Spain and evaluated by the European Food Safety Authority (EFSA), and to food products and conditions established in the opinions of the EFSA.

9. Brief Statement of Grounds

Article 16 of Regulation 282/2008 establishes that until the date of the decisions mentioned in its Article 13.6 (establishing the initial list of authorised processes), national provisions in force concerning recycled plastic materials and articles and recycled plastic shall continue to apply in each EU Member State.

Accordingly and until then, it is necessary to extend the national list of uses of recycled PET obtained in Spain, to its use in plastic materials and articles intended to come into contact with those food products which the EFSA has already considered and for which it has issued a favourable opinion.

It also authorises the use of other recycled plastic materials obtained in Spain, which have received a positive evaluation by the EFSA.
