Technical provisions on the water used, storage temperatures, packaging conditions and microbiological criteria are specified. Finally, obligations surrounding the use of vending machines for raw milk are defined.

#### **9. Brief Statement of Grounds**

It seemed necessary to amend the provisions on the production and placing on the market of raw milk destined for direct human consumption as contained in the Order of 6 August 1985 on the hygiene and sanitary standards that raw milk delivered as is and destined for human consumption must meet, and in the Order of 3 August 1984 that lays down the conditions for granting and renewing health licences as defined in Article 11 of Decree No 63-301 of 19 March 1963 on the prevention of bovine tuberculosis, in order to take account of the latest scientific data and new consumer habits (in particular the use of raw milk vending machines).
