#### **8. Main Content**

This draft decree is issued in accordance with Article 93 of Law No 2016-1321 of 7 October 2016 for a Digital Republic, which will shortly supplement Heading I, Book III of the Postal and Electronic Communications Code with a new Article L100. Said article introduces an equivalence between 'electronic registered delivery' and 'delivery by registered post', provided that it meets the requirements of Article 44 of Regulation (EU) No 910/2014 of the European Parliament and of the Council of 23 July 2014 on electronic identification and trust services for electronic transactions in the internal market and repealing Directive 1999/93/EC. This decree lays down the conditions of application in order to ensure that sending an electronic registered letter and an electronic registered letter printed on paper is equivalent to sending a letter by registered post.

#### **9. Brief Statement of Grounds**

The aim of this draft decree is to develop and facilitate the use of digital technology in France. In particular, it aims to provide effective support with developing the switch to paperless exchanges, especially for businesses. This approach results in supporting the French legislator with developing trust services, including the qualified registered delivery service; this involves guaranteeing its equivalence to sending a letter by registered post, thus ensuring the emergence of this product by granting it the same legal significance.
