2010/0754/E - B00

#### 5. Title

Draft Royal Decree approving the "Structural Steel Code (SSC)".

#### 6. Products Concerned

Steel. Bolts. Nuts. Washers. Rivets.

## 7. Notification Under Another Act

-

## 8. Main Content

This Draft Technical Regulation is the regulatory framework for establishing the basic requirements to be met in the design, construction and maintenance of steel structures in order to satisfy the basic requirements with regard to structural safety, fire safety and environmental protection. This document, which places the emphasis on performance, also contains a procedure for ensuring that these requirements are complied with.

## 9. Brief Statement of Grounds

To transpose the EC market requirements into national legislation for products subject to harmonised standards and intended by this Code.

To adopt, for the purposes of calculating the structure of the Draft, the procedures laid down in the Structural Eurocodes for steel structures, as well as its safety format, together with the corresponding National Annexes, the application of which may be regarded as a means of demonstrating that the requirements laid down in this Code have been met.

To update the regulations on steel structures.

To introduce some environmental aspects in order to steer steel structures towards sustainability criteria.

## 10. Reference Documents - Basic Texts
